

Data Sharing Statement

Data

Data available: Yes

Data types: Deidentified participant data

How to access data: In 2015, the National Cancer Institute (NCI) mandated that all National Clinical Trials Network (NCTN) groups, including the Children's Oncology Group, submit datasets to the NCTN/NCI's Community Oncology Research Program (NCORP) Data Archive (within 6 months of publication) that permits the replication of analyses reported in primary publications for all randomized Phase 3 trials with primary publication published after January 1, 2015.

ANBL0532 falls into this scope of studies requiring data upload. More information can be found here, including how to request study data:

<https://www.cancer.gov/news-events/cancer-currents-blog/2017/nctn-ncorp-data-archive>; <https://nctn-data-archive.nci.nih.gov/>.

When available: beginning date: 09-30-2019

Supporting Documents

Document types: None

Additional Information

Who can access the data: See above information

Types of analyses: See above information

Mechanisms of data availability: See above information

Any additional restrictions: Per NCI
